

## Aticly Sports day for year 6

Students from Dinnington Comprehensive feeder schools competed in order to create an enjoyable sporting event. The event was held to show all of the year 6 students what sport would be like after the transition takes place, from junior school to comprehensive.

The event also showed the younger children that high school life isn't as intimidating as presumed. Overall the event was successful and everyone went home with a certificate and a smile.

Photos of the event are in the gallery section on this site.
